

Newsletter 1/2012

1. Dear costumers, due to rising production and handling costs we have to adapt the prices of several products. See new pricelist details on our website (soon the whole website will be updated)

2. Diff Gear Shaft Evo 2012 (for Powerlock Diff)

- especially made for tight racetracks with 90° & 180° corners
- shifts the balance to front axle, which gives a faster rolling time through corners
- note, this part will make the car more instable in high speed corners, by lifting the throttle. Option will be, to have only one diff spacer mounted in the diff.
- Set: 1x Diff bevel gear axle, 1x Spring, 2x C-Clip, 2x 1mm Shim, 4x 0,5mm Shim, 4x 0,2mm Shim
- **7,90€ costumer price**
